

PROFILE

Born in New Zealand to German immigrants, I enjoyed the multiple benefits of having such a unique background. While my parents and sister remain in New Zealand, my aspirations to play professional soccer and travel the world, brought me to the United States of America.

I was fortunate to attain academic and athletics scholarships to begin working towards my personal and professional goals. My growing interest in computers and coding prevailed.

I decided to transfer to University of Tulsa for its strong Computer Science degrees and am now seeking work opportunities that align with this. Athletics will remain a significant part of my life, and I am grateful for what it taught me about communication, hard work, and leadership.
